FACE PRODUCTIONS

ABOUT US

Face Productions is a stage school, production company, and talent management agency. We offer students aged 10 – 25 training and experience within the performing arts as well as developing the necessary skills to join professional full-time performing arts programmes worldwide. At Face Academy we provide a safe space for students to develop their self-confidence and individuality, both as a performer and as a young person getting ready to take on the world.

PRODUCTION COMPANY

Face Productions presents a major, professional-standard musical theatre show every year. During the year, we also produce smaller shows, as well as digital content including music videos and studio recordings.

STAGE SCHOOL

Face Academy provides intensive, audition-only training to skilled performers aged 10 to 25. Face Academy students perform in our major, professional-standard annual musical, as well as at smaller public events and showcases throughout the year. Face Dance, Face Drama, and Face Voice are additional programmes for dancers, actors and singers looking to hone specific skills in those areas outside of Face Academy's musical theatre training.

TALENT AGENCY

Face Productions Talent Management brings a diverse pool of talent to Hong Kong's entertainment and modelling industry. We pair talent with casting professionals, providing opportunities for young performers and models to gain experience, launch careers in the spotlight, and shine.

NEW YORK SUMMER PROGRAMME

Face Productions will be hitting Broadway! Come with us on this once-in-a-lifetime opportunity as we explore the heart of New York's theatre land. You can expect workshops led by industry professionals and tours of institutes that have some pretty impressive alumni. Why not check out some of the worlds most iconic landmarks along the way? For any avid performing arts student or musical theatre fanatic, this is one trip that is not to be missed!

- Meet international students
- International exposure to the Performing Arts
- Meet industry professionals
- Experience a new culture
- Critical thinking
- Creativity
- Organisation skills
- Allow students to express their thoughts, emotions, and ideas in a meaningful way
- Build fantastic memories

TESTIMONIALS

CHLOE BAEK

The New York summer program was an experience that I will never forget. As a student applying for drama schools/universities this year, this was a great chance to spend the summer with a variety of theatre workshops, Broadway shows, and a showcase presented at the end of the second week with Broadway Workshop. I will never especially forget the first workshop we did which was with AMDA and I was very excited to start creating theatre with everyone else. I got to meet a lot of new faces, and everyone was really kind to me which on the day of flying back home, seeing everyone slowly going their separate ways made me feel sad but also thankful for all the great memories we have made. Overall, this program taught me a lot for the next step towards my career.

GEOFFREY LO

The New York summer program was one of the best experiences. During the two-week trip, we did so many different things, like dance, acting, and singing workshops. We also went to watch a few different Broadway shows. We also got to meet professional Broadway actors, makeup artists, stage managers, and more. Those workshops and meetings with professionals really help us develop and improve new techniques. I think that the Broadway workshop was the most fun since we got to meet new people from different places, and we also got to work with actors and singing teachers. Overall, it's an amazing opportunity to learn and experience what it is to be like a Broadway actor or actress and what it is to be in the Broadway business.

RACHEL KONG

The New York summer program is an amazing experience. I had such an amazing time learning about the musical theatre industry, seeing Broadway shows, going to musical workshops and meeting new friends. It's a fantastic opportunity to learn while having fun abroad.

HALLE CHA

This year's New York Summer Program was an incredible experience. Our group watched so many shows on Broadway together and it was so amazing doing workshops with experienced dancers and actors. It was also so fun learning how auditions and call-backs work, how to submit online auditions, what agencies are looking for and developing our acting technique. Overall, this trip was such an amazing experience and a great opportunity for learning about theatre.

TESTIMONIALS

MARA WILLIAMS

I think the New York Face Summer Programme was the best thing I chose to do before going off to university. Though I was the oldest in the group, I felt that I fit in with everyone there right away, and I got to experience opportunities that'll help me with my future and career in the arts. I think my highlight was the people in industry we got to meet over those two weeks, who were extremely inspiring and passionate.

JAMIE THEN

The Face New York Summer Programme was packed with various activities that really opened my eyes to the lives and practices of full-time Musical Theatre actors, makeup artists, and stage managers just to name a few. I truly loved participating in all the tours and workshops with new people that were just as passionate as I was, learning more about myself as a performer from industry professionals each day and how I could make progress and improve. The highlight of the programme for me was undoubtedly the week-long vocal intensive with Broadway Workshop, where I was challenged to push my boundaries and refine my skills, culminating with a final showcase in front of agents and casting directors— I was constantly pushed to explore different approaches to my material and learnt to perform my best. Overall, the programme was an unforgettable educational experience, shaping me as a performer and leaving lasting memories for years to come!

SHERYL WAN

The New York summer programme was an amazing time for me to bond with people who also enjoyed theatre and to put my skills to the test. It was challenging, fun, and rewarding. I highly recommend this program to aspiring performers!

CASEY YONG

The New York Summer Programme last year was incredible. I got to see so many shows that I never would've gotten the chance to see otherwise, had the opportunity to meet some of my musical theatre idols, and arguably the most unforgettable for all, I got to do it all with some amazing friends. After this trip, I felt as though I knew more about what it took for these big names stars to make it in this tumultuous industry, as well as the extensive history of live theatre in America.
